6th September 2023

To whomever it may concern,

Dear Sir/Madam,

I hope this letter finds you well. My name is Faith Sang, and I am writing to express my strong interest in pursuing an internship/job opportunity at the Communications Authority of Kenya. I am a final year student awaiting graduation in October.

I recently had the privilege of completing my industrial attachment at Taltech International Hub. Afterwards I got an Internship opportunity at GRise Systems Solutions, where I had the opportunity to work on a range of projects related to software development and gain valuable practical experience. During my time there, I was able to develop and strengthen my skills in programming languages such as Python, Django and the Django Rest Framework, software design, debugging, and problem-solving.

In addition to my technical skills, I am a highly motivated and dedicated individual who thrives in a collaborative team environment. I believe that my passion for software engineering, combined with my strong work ethic and ability to adapt to new challenges, makes me a strong candidate for any role within your organization.

I am confident that an internship/job at Communications Authority of Kenya would provide me with the ideal platform to further enhance my knowledge and skills in software engineering while making a meaningful impact.

Thank you for considering my application. I look forward to the possibility of joining your organization and contributing to its continued success. Once again, thank you for your time and consideration.

Sincerely,

Faith Sang
